

Solar Powering a Green Future™

Governor's Renewable Energy Summit

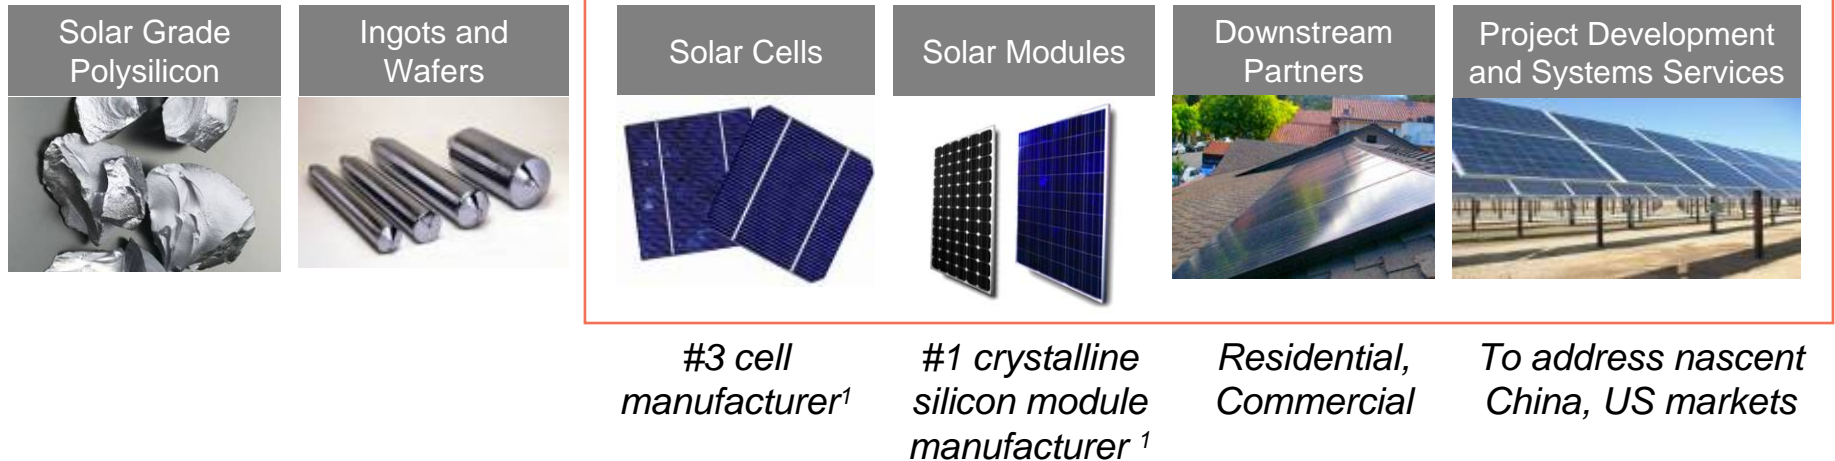

Polly Shaw, Director of External Relations

April 15, 2010

Suntech Snapshot

Suntech's Core Business

Milestones

- **Founded — 2001 in Wuxi, Jiangsu Province, China**
- **IPO Date — December 14, 2005 (NYSE: STP)**
- **1GW production capacity at end of 2008**

Products & Services

- **Crystalline silicon PV cells and modules**
- **BIPV products (crystalline and thin film)**
- **Project development and systems integration**

Market Capitalization

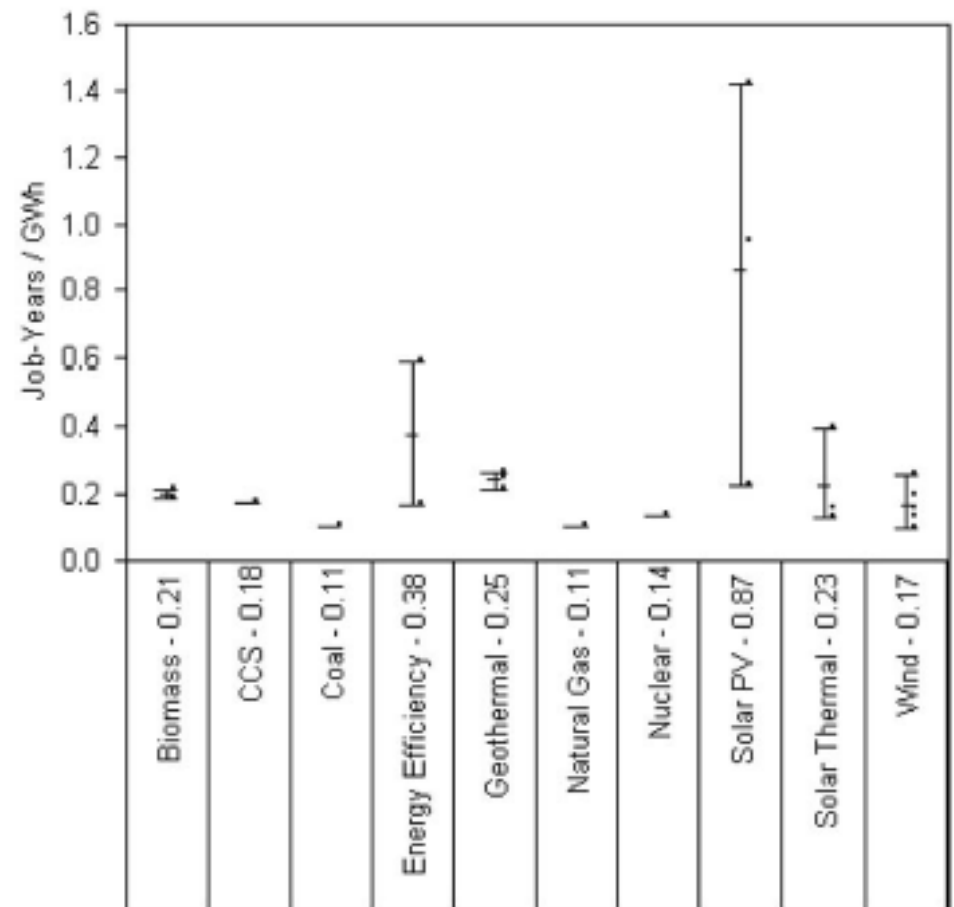

- **Market Capitalization — \$2.66 billion (25 November 2009)**
- **Free Float — 66%**

(1) By volume, according to March 2009 edition of *Photon International*

Solar Industry Jobs Benefits

- Manufacturing jobs
- Installation, O&M, finance– the main jobs and non-exportable
- Upstream:
 - Raw materials
 - Equipment manufacturers
 - R&D

What Could Expand Arizona PV

- REST: unwavering support, clear authority,
- Continuity for Distributed Generation funding, transparency, predictability, advanced notice
- Clarity Third-party providers/ Purchase Power Agreements
- Feed-in Tariff with Auction Mechanism for 1-10 MW
- PACE financing

Industry Commitments

- Keep finding cost efficiencies
- Engage in policy discussions
- Adhere to strong, reasonable standards:
 - Manufacturing
 - Product
 - Installation and performance

Suntech's New Goodyear Home

- 10-year lease, brand new building.
- 80,000 sq. ft factory, 37,000 sq ft warehouse
- 30 MW initial production capacity
- Production begins in Fall 2010
- 75 employees in year one
- Could quadruple at site if market grows
- Will utilize world-class, highly advanced manufacturing equipment

THANK YOU
